“It is a noble faculty of our nature which enables us to connect our thoughts, our sympathies, and our happiness with what is distant in place and time; and looking before and after, to hold communion at once with our ancestors and our posterity. There is also a moral and philosophical respect for our ancestors, which elevates the character and improves the heart. Next to the sense of religious duty and moral feeling, I hardly know what should bear with stronger obligation on a liberal and enlightened mind than a consciousness of an alliance with excellence which is departed; and a consciousness, too, that in its acts and conduct, and even in its sentiments and thoughts, it may be actively operating on the happiness of those that come after it.”—DANIEL WEBSTER.

PREFACE.

In the following pages the compiler has endeavored to gather into a conveniently referred-to system the information which he has received from many members of the family and other sources, bearing upon the genealogy of the Eddys. Accuracy and completeness have been aimed at; but the field is a large one, and there will be much to add; it is a difficult one, and there will be much to correct; still, it is felt that something may here be found of interest to the members of each branch of the family, and by its perusal many persons who do not find their names in the book may be aided by it in tracing their connection, and thereby fill out the record of their particular branch. The descendants of Rev. William Eddy, A.M., are here traced down to the present time in the female as well as the male lines, thus giving the compilation a more general character and a correspondingly increased interest. Surely one good purpose will be served by thus systematizing what ancestral knowledge is current—the placing of such in a form which will ensure its perpetuity.

During the eleventh century surnames to distinguish families were first taken in England by men of rank, and were gradually assumed by the common people in the thirteenth century.

Eddy as a surname is derived primarily from the

Anglo-Saxon word, ead—English Eade, Eadie, Eddy—being the common root for words meaning wealth, prosperity and success; Ead, Saxon, signifies blessed, happy; Eddee, in the Gaelic, signifies an instructor; Edd, Welsh, signifies motion, going; Eddu, to go, to move. The word Eddy, appearing in its simple form, not compound, shows it to be one of the most ancient of Anglo-Saxon names.

There is a strong probability, if not certainty, that many families who now spell their names Edie, Edye, Eddie, Eadie, Edy, Ady, Adey or Addey are descendants from the same ancestors as those who bear patronymic Eddy. At present there is some doubt in regard to the accuracy of the Armorial Bearings of the Eddy family; but it is thought by many who are able to judge in such matters to be in heraldic language—Purp., three men's heads cooped at the shoulders, crined grey.
